MEMORANDUM FOR: Deputy Director (Administration)

25X1A

SUBJECT: [REDACTED] Table of Organization

1. I had a substantial talk with [REDACTED] this morning about the problem of Management examination of field T/O's with special reference to this one. He said these things:

25X1A

a. In respect to manpower as such, i.e., numbers of people to do a job, that Management would have to really live with the situation for a substantial period of time in order to come up with any kind of an intelligent conclusion. To this I agreed, and clearly, of course, we have no competency in this particular for a field mission.

b. There are no statements of functions anywhere, and he doesn't expect to be able to secure a statement of functions for the [REDACTED] for at least a year.

25X1A

c. He realizes the very difficult spot that [REDACTED] puts the Management Staff in, and while willing to help in any way possible, he asks that as a general tactic we strain our consciences as far as we can and allow them to go ahead in an endeavor to straighten out a disorganized situation, and then we survey after the fact. He said that otherwise, because of the length of time needed to do a thorough Management job, that existing states of confusion would only be perpetuated.

25X1A

25X1A

2. I see no alternative in the face of the above to closing our eyes and let them have what they have put down in their proposal - and so recommend, - with the understanding that FE produces job descriptions as promised and functional statements as expeditiously as possible.

3. I am unable at the present time to come up with any resolution of the basic problem of field T/O's beyond that of asking as many questions as possible here at Headquarters. Perhaps later we can develop some competency in this connection.

CONFIDENTIAL

25X1A

Chief, Management Staff
